

Do you have grandparents, aunts/uncles, or family that would like to watch your student's performances at high school games but are unable to due to work or distance?

Through the national NFHS Network (National Federation of High School Sports Network), LSE has a student broadcast team covering Lincoln Southeast Athletics competitions via video live stream and on demand.

LSE KnightVision, which last year produced over 50 broadcasts, is a student broadcast club that allows students to learn video production through hands-on experience.

Kicking off the sport season with the 8/26 Northeast at Southeast football game (7pm) [tomorrow night](#), you can watch this game and others for \$9.95 [at this link here](#). This price gets you a 30 day pass to watch all varsity Volleyball & Football home games live or on-demand for 2 days after the event.

At the same link you can buy a year pass (365 days) for \$50 which will get you all LSE varsity home game video live streams for Football, Volleyball, Boys/Girls Basketball, Boys/Girls Soccer and potentially more.

Keep in mind that 50% of those costs come back to us from NFHS Network, the national forum for these games. For any questions contact [vhaines@lps.org](mailto:vhaines@lps.org) or the LSE Athletic Office.

Thank you for your support!
